

Accessible Web Content Overview

Accessible Web Content Overview

This document explores key principles and practices for building accessible digital experiences, suitable for printing and PDF rendering using Paged.js.

1. Benefits of Accessibility

Top reasons to embrace accessibility:

- Improves user experience for everyone
- Expands audience reach
- Reduces legal risk
- Boosts SEO and usability

Steps to get started:

1. Use semantic HTML
2. Add alternative text for images
3. Ensure keyboard navigation
4. Use proper color contrast

Accessible Web Content Overview

2. Accessibility Feature Checklist

Feature	Status	Details
Alt text on images	✓ Implemented	All images have descriptive alt attributes
Keyboard navigation	✓ Implemented	All interactive elements are keyboard accessible
Color contrast	✗ Pending	Needs WCAG contrast checking
